### Crews finish paving SR 527 widening project, new lanes open to drivers

WSDOT crews have good news for commuters, travelers and shoppers who use the Bothell-Everett Highway (SR 527). At 3 p.m., Friday, May 12, KLB Construction crews working for WSDOT [opened all five freshly paved lanes of SR 527](#) to drivers. The new lanes, located between 132nd SE in Mill Creek to 112th SE in Everett, complete an almost [twelve-mile long corridor widening project](#) between Interstate 5 and Interstate 405. The extra lanes will help keep traffic moving and reduce congestion related accidents on this vital corridor. Drivers now have two lanes in each direction from I-405 in Bothell to I-5 in Everett.

However, crews are still not done improving this section of highway. Drivers will see crews actively working throughout the next month striping the roadway, adjusting utilities and adding finishing touches to landscaping near the highway.
